**[FRL-9984-84-Region 6]**

### **Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption Reissuance - Class I Hazardous Waste Injection; Phillips 66 Company Borger, Texas**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of a final decision on a UIC no migration petition reissuance.

**SUMMARY:** Notice is hereby given that a reissuance of an exemption to the Land Disposal Restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has been granted to Phillips 66 Company for a Class I hazardous waste injection well located at their Borger, Texas refinery. The company has adequately demonstrated to the satisfaction of the EPA by the petition reissuance application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by Phillips 66 Company of the specific restricted hazardous wastes identified in this exemption reissuance request, into Class I hazardous waste injection well WDW-325 until April 1, 2026, unless the EPA moves to terminate this exemption. Additional conditions included in this final decision may be reviewed by contacting the EPA Region 6 Ground Water/UIC Section. A public notice was issued July 13, 2018, and the public comment period closed on August 30, 2018, and no comments were received. This decision constitutes final Agency action and there is no Administrative appeal. This decision may be reviewed/appealed in compliance with the Administrative Procedure Act.

**DATES:** This action is applicable as of September 17, 2018.

**ADDRESSES:** Copies of the petition reissuance and all pertinent information relating thereto are on file at the following location:
